National Contact Points NCPs

B.Bice

NCP (National Contact Points)

- Os NCPs são estruturas nacionais indicadas, estabelecidas e **financiadas** pelos próprios Governos Nacionais.
- Objetivos dos NCPs:
 - Informar e dar assistência aos pesquisadores que estão propondo projetos aos Programas Quadro da Comissão Europeia (FPs).
 - Assegurar transparência e igualdade no acesso a esses Programas.
 - Contribuir para a implementação dos Programas Quadro (atualmente ao FP7)

Princípios básicos

- Os NCPs podem assumir diferentes tipos de estruturas:
 - Redes muito ou pouco centralizadas,
 - Distintos atores como universidades, ministérios, centros de pesquisa, organizações não-governamentais, empresas de consultoria ou empresas privadas.
- Devem ter capacidade de assegurar:
 - Competências nas diferentes áreas temáticas dos FPs; e
 - Atuação nas diferentes prioridades temáticas dos FPs.

B.Bice

Tarefas recomendadas para o sistema NCP

1. Informar para aumentar a sensibilização sobre os FPs;
2. Aconselhar, assistir e treinar; e
3. Propiciar retorno à Comissão Europeia.

1. Informar para aumentar a sensibilização sobre os FPs:
 - Circulação de documentação da Comissão Europeia;
 - Organização de atividades em ligação com os serviços da Comissão;
 - Sensibilização para o aumento da participação de mulheres nos projetos de pesquisa;
 - Sensibilização para o aumento da participação de pequenas e médias empresas nos projetos de pesquisa;
 - e
 - Aumento do conhecimento sobre outros programas da CE no campo da pesquisa e inovação como CIP, Eureka e COST, dentre outros.

B.Bice

Tarefas recomendadas para o sistema NCP

2. Aconselhar, assistir e treinar sobre:
 - Objetivos dos FPs e suas modalidades de financiamento;
 - Procedimentos administrativos e questões legais (papel e responsabilidade dos participantes, custos e procedimentos legais da Comissão Europeia);
 - Busca de parceiros disseminando chamadas de projetos (Cordis e redes de cooperação);
 - Apoio às instituições de pesquisa e às pequenas e médias empresas sobre aspectos dos FPs;

B.Bice

Tarefas recomendadas para o sistema NCP

- Treinamentos sobre os programas de cooperação internacional para multiplicadores de informação;
- Organização de seminários de treinamento para grupos alvos específicos ou sobre tópicos específicos; e
- Fornecimento de informações para os participantes dos FPs, em particular para pequenas organizações e pequenas e médias empresas.

3. Propiciar retorno à Comissão Europeia :
 - Sobre quaisquer problemas ou dificuldades na implementação e participação nos FPs;
 - Sobre sinalização para outras redes de serviço de suporte da Comissão Europeia sobre participantes que precisam de assistência;
 - Sobre atividades realizadas pelos NCPs e sobre eventos com participação de membros da Comissão.

B.Bice

Características do sistema NCP

- Ser capaz de comunicar com competência com os potenciais participantes dos FPs;
- Estar bem informado em relação a natureza, objetivos e princípios dos FPs e outras áreas de interesse.;
- Ser competente para fornecer serviço de assistência para os potenciais participantes dos FPs;
- Trabalhar de forma **independente**, de maneira totalmente **imparcial** e **sem conflitos de interesse**; e
- Agir com completa **confidencialidade** com relação às informações que lhes chegam.

Características recomendadas

- Participar ativamente de redes transnacionais de NCPs procurando melhorar sempre o seu serviço;
- Ter capacidade gerencial e financeira;
- Ter experiência e reconhecimento para alcançar a comunidade de pesquisa e ter bons conhecimentos sobre a pesquisa nacional;
- Ter recursos humanos e equipamentos adequados;
- Fazer parte, preferencialmente, de um sistema internacional para o estímulo à participação nos FPs e para a busca de parceiros;
- Ter capacidade de se coordenar com diferentes parceiros do sistema NCP.

B.Bice

Coordenador Nacional

- É necessário um mecanismo de coordenação dos NCPs para manter uma consistência operacional.
- Características e atribuições do Coordenador de NCP:
 - nomeado um em cada país;
 - tem por objetivo prover uma coordenação geral dos NCPs nacionais;
 - deve desenvolver atividades ligadas às ações horizontais dos FPs; e
 - Deve fornecer sugestões aos serviços da Comissão sobre questões relativas ao desenvolvimento e melhorias do sistema NCP.

- Países Terceiros podem participar da rede Europeia de NCPs, a partir dos seus pontos de contato junto ao FP e serão encorajados a montar NCPs nacionais com uma estrutura organizacional parecida à europeia
- Nomeação dos NCPs nos Países Terceiros
 - Comunicada ao Diretor Geral da DG RTD em uma carta oficial encaminhada pelo Ministro Competente do País Terceiro;
 - O processo de identificação deve ser coordenado e divulgado por autoridade competente do País Terceiro;
 - Estruturados de acordo com as prioridades temáticas e horizontais dos Programas Quadro

B.Bice

Depois da nomeação

- Depois da nomeação dos NCPs dos Países Terceiros
 - Reconhecimento pelos serviços da Comissão, durante todo o andamento do FP, como sendo os Pontos de Contato preferenciais para fornecer informações e dar assistência e conselhos sobre os programas da DG RTD.

- Os Pontos de Contato Nacionais para os FPs nomeados pelas **autoridades nacionais nos Países Terceiros** serão convidados a participar das atividades dos NCPs dos Estados Membros e dos Países Associados à União Europeia, mas, em geral, **não receberão contribuições financeiras da CE para essa participação.**

Cooperação entre os NCPs e os Serviços da Comissão

- A Comissão considera os NCPs como parceiros importantes para a implementação e gerenciamento dos FPs.
- Divisões de responsabilidade é o elemento mais importante para assegurar a transparência e igualdade no acesso.
- Os serviços da Comissão concordam que a rede de NCP é essencial para propiciar informações práticas e dar assistência para os participantes em potencial dos FPs.
- Os NCPs dos países Terceiros serão convidados a participar de qualquer das atividades e eventos da Comissão, mas não receberão ajuda financeira.

B.Bice

O que a comissão faz para os NCPs

- Publica os endereços dos NCPs no banco de dados Cordis NCP, em guias e outros materiais.
- Treina os NCPs em aspectos relativos aos temas, formas de participação, gerenciamento, questões financeiras e legais, aspectos éticos, dentre outros, relativos aos FPs.
- Convida os NCPs (não financia):
 - a participar nas ações de informação e aconselhamento.
 - para conferências temáticas e seminários organizados pela direção dos programas.
- Indica pessoas de contato nos Serviços da Comissão, para todas as prioridades temáticas e horizontais dos FPs.

B.Bice

- Fornece informações sobre:
 - Programas de trabalho;
 - Futuras chamadas;
 - Mudanças nas prioridades temáticas ou em procedimentos administrativos;
 - Estatísticas sobre os editais;
 - Avaliações realizadas;
 - Informações relevantes; e
 - Projetos financiados.
- Fornece:
 - Panfletos, brochuras; e
 - Outras informações relevantes para distribuição pelos NCPs.

B.Bice

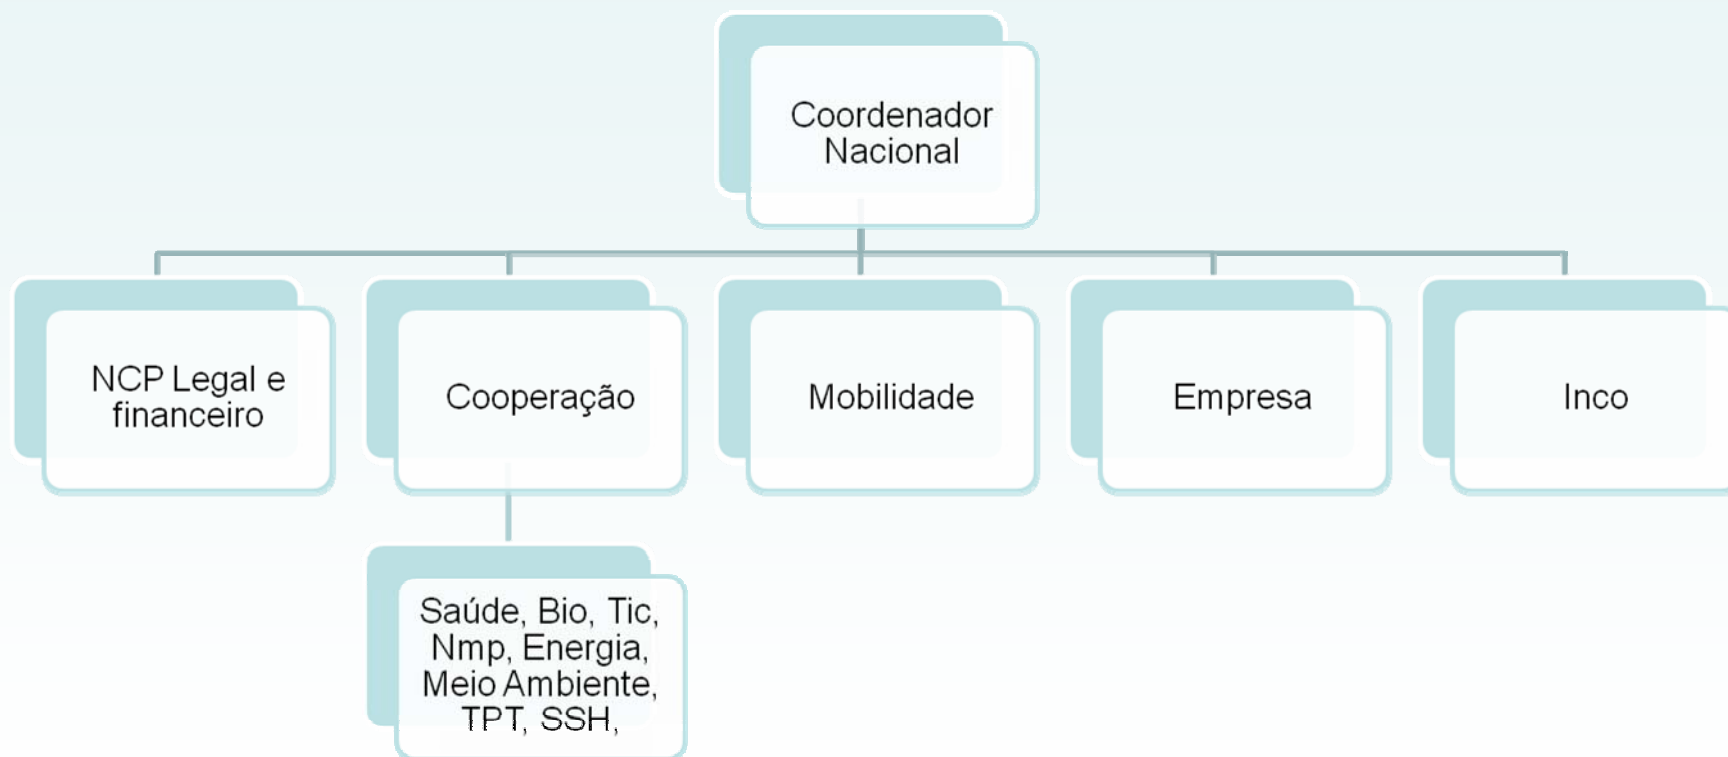

Cooperação entre as redes nacionais

- Os NCPs vão cooperar em duas linhas:
 - Cooperação com o sistema NCPs de outros países, cobrindo o mesmo campo de atividade, trocando informações e experiências.
 - Cooperação no mesmo país com outras redes de amparo de negócios, redes de pesquisas nacionais e organizações para evitar sobreposição de atividades.

Network of National Contact Points (NCPs)

The network of National Contact Points is the main structure to provide guidance, practical information and assistance on all aspects of participation in FP7.

What is the NCP network?

NCPs are national structures established and financed by governments of the 27 EU member states and the states associated to the framework programme. NCPs give personalised support on the spot and in proposers' own languages.

The NCP systems in the different countries show a wide variety of architectures, from highly centralised to decentralised networks, and a number of very different actors, from ministries to universities, research centres and special agencies to private consulting companies. This reflects the different national traditions, working methodologies, research landscapes and funding schemes.

FP7 contacts in third countries

In FP7, participation of organisations from third countries (which are neither Member nor Associated States) is encouraged. The Commission therefore have established a database with contacts in third countries who can give assistance to potential participants in these countries and to organisations from Member and Associated States looking for partners in third countries. For the moment, the list of countries is limited. Continuous updates are foreseen.

Type Details: The FMTC e.V. (<http://www.fmtc.de>) is an independent research association. It is located in the middle of Germany. The FMTC e.V. places emphasis on both, fundamental research as well as practice near research topics. We provide top level scientific expertise in the following areas:

(1) Thin films

- thin film deposition by plasma technologies (PECVD), electrophoresis, electro-deposition
- special expertise: diamond-like carbon, fullerene, dielectric materials, doping of films
- structural characterisation of amorphous and nano- structured thin films (i.e. Raman, FT-IR, NMR spectroscopy, ESR, HR-TEM, ESMA)
- mechanical properties of thin films (i.e. nano-,micro-hardness, scratching, acoustic waves)
- corrosion behaviour, long time durability tests and exposure to aggressive media

(2) Thermal spraying

- characterisation and optimisation of thermal sprayed coatings

(3) Microwave processing

- microwave sintering of ceramic materials
- microwave sintering of composite materials
- processing in monomode/multimode sintering cavities

(4) Biomaterials

- bioceramic (hydroxyapatite, carbon, composites)
- metallic knee prostheses (i.e. CoCrMo)

Research Interest:

Expiry Date: 2010-02-08

Target Partner

Expertise: We are interested in participating in an EU project proposal. Possible topics could be:

- (1) Plasma deposition, optimization and characterisation of thin films for MEMS, microelectrical, biomedical (medical implants) or optical applications (solar cells)
- (2) Nano-structuring of thin films by doping, multilayers, thermal etching, local laser ablation, laser treatment etc.
- (3) Nano-structured materials based on carbon, graphene
- (4) Biomimetic approaches to tailor materials properties (medical implants, structural materials, adapted surface and interface properties, fibre reinforced materials etc.)
- (5) Composites materials for structural parts (materials for lightweight automotive or space applications)
- (6) Innovative and cost reducing processing technologies (i.a. pulsed plasma for PECVD, microwave sintering and treatment of materials)

We are also interested in other research topics. Please feel free to contact us by e-mail ([Contact](#))

Welcome to the CORDIS Partners Service

The Partners Service is a free on-line service, tailor-made to help you to find the best research partners for your projects, either in the context of EU-funded Research and Development projects or within a broader search for technology-orientated partnerships. The service includes details on thousands of active partnership requests from companies, research institutions and universities across Europe and around the world.
