[Research goals in place to improve the state of Mediterranean forests](#)

[Date: 2009-10-05]

Experts have agreed on a research agenda to address problems being faced by forests around the Mediterranean. The region, defined as the triangle that links Mediterranean Europe with North Africa and the Middle East, needs more research, education and innovation to sustain the ecosystems that generate the many products and services that contribute to national economies. ... Como fazer o registro da sua instituição?

The screenshot shows the European Commission CORDIS website. The main navigation bar includes links for Home, News, Funding, Results, Themes, Go local, Look it up, Interact, and Help. The page title is "Seventh Framework Programme (FP7)". A search bar is present with the text "Search all CORDIS". A sidebar on the left lists various navigation options, with "Register your organisation" highlighted in a red box. The main content area is titled "Participant Portal" and contains the following text:

Register your organisation

Those who are familiar with the proposal and negotiation submission forms know that in the past, participants had to provide to the Commission their legal and financial information every time they submit a proposal or negotiate a contract.

To eliminate these redundant requests for information, we invite you to register your organisations data only once in the **Unique Registration Facility (URF)** which is hosted in the [Participant Portal](#).

The [Participant Portal](#) is an intuitive, user-friendly online platform which offers a consistent and coherent set of services in order to facilitate FP7 participants interactions with the Research Directorates-General of the European Commission. It is also a secure Internet site that ensures adequate authentication and confidentiality mechanisms.

After the registration of your organisation, you will receive a [Participant Identification Code \(or PIC\)](#) which you will be able to use in all proposals submissions and negotiations. If you think your organisation already has registered in URF, check within the [PIC section](#) how to retrieve your organisation's PIC.

On the right side of the page, there is a "Quick Links" menu with the following items:

- PIC
- LEAR
- Validation
- FAQs

WELCOME

Welcome to the Participant Portal

The **Participant Portal** will become your single entry point of interaction with the Research Directorates-General of the European Commission. It will host a full range of services **that facilitate the monitoring and the management of your proposals and projects** throughout their lifecycle.

What does it offer today?

- You can **register your organisation's data** in the **Unique Registration Facility (URF)**, avoiding redundant requests for information;
- After registration you will receive a **Participant Identification Code (PIC)** that uniquely identifies your organisation. You can use it to maintain your organisation's details and monitor its status in the processes of electronic proposal submission and negotiation;
- You can also **check whether your organisation has already registered** and if so, retrieve the PIC that has already been assigned;
- The appointed representative of your organisation, called the **LEAR (Legal Entity Appointed Representative)** **can provide and update relevant legal & financial data** via the portal.

Other functionalities are currently implemented as pilot services:

- All visitors may search for **FP7-related support documents**;
- LEARs may access the **list of projects** associated with their organisation, including project details and the status of amendments.

SEARCH ORGANISATIONS

Please fill in the search criteria to find the organisation

It is obligatory to complete either the "legal name" field or the "VAT number" field with at least a three character string. The other search fields can be left blank.

However, too unspecific queries may result in a long results list. The results list are truncated after the 20th record.

If searching for a legal name in the national language does not yield results you might try with a translation in English.
